

tudat::system_models
::EngineModel

```
graph BT; A[tudat::system_models::DirectEngineModel] --> B[tudat::system_models::EngineModel];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a white box labeled 'tudat::system_models::DirectEngineModel'. A blue arrow points upwards from this box to a gray box at the top labeled 'tudat::system_models::EngineModel'. This indicates that 'DirectEngineModel' inherits from 'EngineModel'.
