

tudat::gravitation
::GravityFieldVariations

```
graph BT; A[tudat::gravitation::TabulatedGravityFieldVariations] --> B[tudat::gravitation::GravityFieldVariations];
```

The diagram illustrates an inheritance relationship between two classes in the tudat library. A blue arrow points from the base class box at the bottom to the derived class box at the top. The base class box is shaded gray and contains the text 'tudat::gravitation' followed by '::TabulatedGravityFieldVariations'. The derived class box is white and contains the text 'tudat::gravitation' followed by '::GravityFieldVariations'.
